Did You Know?

Our journey began in 1969, just a few years after the establishment of Tri County Vocational School, District #1. The Tri County Vo-Tech Foundation was originally incorporated solely for charitable purposes, with the primary goals of providing unsecured loans and awarding grants to support students in the Nursing Education program.

A few decades later, we embraced the philosophy that no student should be denied an education due to financial barriers. Today, the Tri County Tech Foundation supports in-need and qualifying students in three vital areas: **Tuition Assistance, Emergency Aid, and Food Assistance**, serving those enrolled in Full-Time and Flex classes at our Bartlesville, Pawhuska, and Nowata campuses.

Nursing students remain our largest program served, continuing a proud tradition of transforming lives.

"Your contribution to my education allows me to achieve all that I have set out to do. Coming from a background of lost opportunity, it is an honor to finally be here with a gift that will impact my future."

"If it weren't for the Tri County Tech Foundation offering grants, financially it would not have been possible for me to attend TCT and achieve my goals & dreams. Thank you for always believing in me when no one else did, you truly changed my life and I can see the light at the end of the tunnel."

"When I first applied to Tri County Tech, I was not accepted, but luckily, someone else dropped out. TCT changed my life and encouraged me to be better, and I have had the opportunity to work with the Nursing department at a clinical site in two different locations. Last semester, I was given an opportunity to help with the phlebotomy class - and recently, I got invited to my first "meeting." It has been a full circle. The nursing program and instructors are life-changing. If you want to do something to improve your life/self, don't wait - it will only happen if you make it happen. Only let people near you that are positive, reassuring, and want to see you win."

"I personally thank Tri County Tech for allowing me to attend this amazing program and for all the help and care you provide to students. Without the grants you offer, financially, it would not have been possible for me to attend and achieve my dreams. Your support has made a real difference in my life; I know many others feel the same. Thank you for believing in me when no one else did and ensuring I know that being in a rough spot in life cannot stop me from doing anything I set my mind to. I've found an incredible support system and made many lifelong friends here. You truly changed my life, and I can finally see the light at the end of the tunnel. God bless each of you and your families."
